

Current Acceptable Certificates for AM2 Gateway Check (not exhaustive and subject to change)

AM2 candidates must be enrolled on or have completed an associated vocational programme of study at Level 3 or equivalent, which covers the knowledge associated with the Electrotechnical industry including installation. In all cases the gateway evidence must be Awarding Organisation documents that clearly show registration number, qualification number and registration date (such as learner history or certificates). The rationale for this is to ensure that the candidate has a level of technical ability required to undertake the industry assessment of competence.

Sole qualifications such as BS7671 Wiring Regulations, Initial Verification or Portable Appliance Testing will not be accepted.

Acceptable Technical Certificates or Unit Credit

EAL

- Experienced Worker ETS 3
- EAL Level 3 NVQ Diploma in Installing Electrotechnical Systems and Equipment (Buildings, Structures, and the Environment) 501/1605/8 or 1604 (maintenance)

City and Guilds
