

Current Acceptable Certificates for AM2 Series Gateway Check (not exhaustive and subject to change) applicable until 31 August 2022

AM2 Assessment

For those who will be applying for an ECS gold card, the acceptable Gateway qualifications are:

EAL

- Experienced Worker ETS 3
- EAL Level 3 NVQ Diploma in Installing Electrotechnical Systems and Equipment (Buildings, Structures, and the Environment) 501/1605/8 or 1604 (Maintenance)

City and Guilds

- Experienced Worker 2356-99
- City and Guilds Level 3 NVQ Diploma in Installing Electrotechnical Systems and Equipment (Buildings, Structures, and the Environment) 2357-13 or 23 (maintenance) 2357-99/44 unit based.
- City and Guilds 2355-03 Certificate (NVQ)
- City and Guilds 2356 Certificate (NVQ)

RSME Installation Electrician

- Level 3 or 4 Diploma in Electrotechnical Studies and Practice (Military Engineering)

AM2 candidates must be enrolled on or have completed an associated vocational programme of study at Level 3 or equivalent, which covers the knowledge associated with the electrotechnical industry including installation. In all cases the gateway evidence must be Awarding Organisation documents that clearly show registration number, qualification number and registration date (such as learner history or certificates).

Those wishing to take the AM2 but are *not* in a position to apply for an ECS card:

The requirements of certification, unit credit or confirmation of registration still apply. The rationale for this is to ensure that the candidate has a level of technical ability required to undertake the industry assessment of competence.

Sole qualifications such as BS7671 Wiring Regulations, Initial Verification or Portable Appliance Testing will not be accepted.

EAL

- Electrical Installation Level 3
- Advanced Certificate in Electrical Installation

City and Guilds

- | | |
|----------------|-------------------------|
| • 2365 Level 3 | • 2360 Part 2 |
| • 2351 | • 2357-44 Bridging Unit |
| • 2330 Part 2 | • 8202-30 |

An appropriate Level 3 Engineering qualification such as Installation and Commissioning (Electrical pathway) NVQ.

Overseas/Naric qualifications are no longer accepted for an AM2. Candidates must go through the Experienced Worker (AM2E) assessment route.

AM2S Apprentices Only

EAL

- Installing Electrotechnical Systems and Equipment NVQ (Buildings, Structures and the Environment) 601/7345/2

City and Guilds

- Installing Electrotechnical Systems and Equipment NVQ (Buildings, Structures and the Environment) 5357 (601/6299/5)

These must be completed, and the certificate uploaded along with appropriate additional qualifications, if applicable, with respect to the nation of residency.

Non-apprentices should not complete these qualifications.

AM2E Experienced Worker

AM2E is the industry end assessment for the Electrotechnical Experienced Worker Assessment. Only completed EAL 603/5982/1 or City and Guilds 2346-03 certificates, will be accepted for this Experienced Worker route which replaces the JIB Mature Candidate Assessment. The completed certificates must be uploaded to the gateway.

Candidates that have previously completed an AM2 can take a unit-based AM2E which recognises previous attainment. A copy of the AM2 certificate must be uploaded along with the qualification certificate to be approved.
